Fabric Recommendations

Light to medium weight woven fabrics with plenty of drape such as rayon challis, viscose poplin, crepe de chine, lightweight linen, and tencel twill. View A and B work well with both fluid and slightly structured fabrics. For the longer lengths (view C and D), a lighter weight fabric with plenty of drape is strongly recommended.

Waist: This pattern includes 0.75" (2 cm) of ease at the waist. If you expect you may want more ease at the waist it is recommended that you size-up.

Hip: Due to the deep inverted box pleats, there is plenty of ease at the hips (see the image to the right). Choose a size based on your waist measurement.
